- chemicals

ISOLAB GmbH is part of a multinational group of companies based in Germany with over 300 employees and production, storage and logistics operations in 3 different countries.

ISOLAB is committed to providing the most modern products and solutions for its customers worldwide and their various applications and research activities, whether in the laboratory, in universities, institutions, in industrial use or even in the house and garden.

We are proud of our own production of laboratory supplies, instruments and chemicals with various production areas totaling over 5,000 m² and storage areas of over 12,000 m². We now export the ISOLAB brand to over 100 different countries for laboratory professionals, researchers, teachers, craftsmen and housewives. Although our main customer base is in Europe, we also have a strong presence in Asia, Africa, South America and the CIS countries.
